

1:500 000 Interpreted Bedrock Geology of Western Australia, 2008 Update

The digital 1:500 000 interpreted bedrock geology map of Western Australia is a compilation based on published 1:100 000 and 1:250 000 series geological maps for Western Australia, together with GSWA and GA (BMR, AGSO) regional geological maps at scales from 1:250 000 to 1:1 000 000. It has been modified locally using geophysical datasets (magnetics and gravity), and recent, unpublished geological mapping. This data is held in GDA decimal degrees. February 2008 Update.
