

SAMPLE LOCATIONS

- SYMBOLS
- Formed road
 - Track
 - Watercourse
 - Lake
 - Homestead
 - Locality
 - Prospect
 - Mineral occurrence
 - Barite
 - Copper
 - Gold
 - Uranium
- Sample point references
- 147458 Stream sample
 - 147459 Sheetwash sample

SIMPLIFIED GEOLOGICAL INTERPRETATION

- PHANEROZOIC - PERMIAN - CARBONIFEROUS
- Byro and Wooramel Groups
 - Sandstone, siltstone, and shale
 - Lyons Group and CALLYTHARRA FORMATION
 - Limestone, conglomerate, sandstone, and siltstone; glaciogenic and marine
 - Bangemall Group
 - Shale, sandstone, conglomerate, and dolomite
 - MOUNT JAMES FORMATION: metamorphosed conglomerate, sandstone, chert, siltstone, and mudstone
 - Biotite granodiorite, biotite gneiss, biotite-muscovite granodiorite, and monzogranite
 - Mortssey Metamorphic Suite: quartzite, schist, paragneiss, and migmatite
 - Gneiss, quartzite, granitoid rock, and quartz-magnetite rock
 - Geological boundary
 - Fault
- PROTEROZOIC
- ARCHAEO - PROTEROZOIC
