

This package contains information and geochronology results obtained to June 2016 by the Geological Survey of Western Australia (GSWA), and to July 2007 by Geoscience Australia (GA).

The interactive spatial data are viewable within GeoMap.WA. The data are organized, compiled and internally linked to databases provided within the package. The datasets can also be loaded into ArcMap and MapInfo projects.

Datasets featured:

**Geological Survey of Western Australia
geochronology data¹**

GSWA geochronology sample sites and information

Geoscience Australia geochronology data²

GA geochronology sample sites and information
Data sourced from GA's OZCHRON database (July 2007)

A more recent OZCHRON release, which contains only SHRIMP U–Pb data, is available for download from the GA website
