

**RECORD
1996/11**

**PERMO-CARBONIFEROUS
PETROLEUM RESERVOIR DATA,
SELECTED WELLS, CANNING BASIN,
WESTERN AUSTRALIA**

Edition 1

by P. J. Havord, S. N. Apak, and G. M. Carlsen

GEOLOGICAL SURVEY OF WESTERN AUSTRALIA

DEPARTMENT OF MINERALS AND ENERGY

Permo-carboniferous petroleum reservoir data, selected wells, Canning Basin, WA.

The accompanying files, which were converted from Microsoft Excel version 5.0 to comma separated variable (CSV) format, represent the digital data tables for the above GSWA publication. More data fields appear in the accompanying digital tables than in the published hard copy tables due to hard copy page width constraints.

In addition, wireline log data in the hard copy table have been restructured to a generic format in the digital table to enable easier filtering and sorting of data should the user wish to reconvert CSV files to spreadsheet format. The data tables corresponding to the CSV files are:

cpc1core.csv	conventional core depths
cpc1logs.csv	wireline log data
cpc1lpor.csv	log porosity data
cpc1pet.csv	petrology data
cpc1rca.csv	routine core analysis data
cpc1show.csv	petroleum show data
cpc1swc.csv	sidewall core data
cpc1test.csv	well test data
cpc1tops.csv	formation tops data
cpc1well.csv	general well data

Permo-carboniferous petroleum reservoir data, selected wells, Canning Basin, WA.

Product available from First Floor counter, Mineral House, 100 Plain St, East Perth, WA 6004, AUSTRALIA. Or ordered through: www.doir.wa.gov.au/ebookshop
