

ASTER GEOSCIENCE MAP OF WESTERN AUSTRALIA 2012

ROYALTIES
FOR REGIONS

EXPLORATION INCENTIVE SCHEME

ISBN 978-1-74168-420-9

June 2012

This data package contains the ASTER (Advanced Spaceborne Thermal Emission and Reflection) geoscience map of Western Australia. It covers the entire state of Western Australia.

The suite of satellite-derived ASTER products that make up the map will supply basic information about the dominant rock and soil-forming mineral components of the huge state of Western Australia. The data consists of fourteen different surface-composition maps of various mineral suites resulting from the surface weathering of rocks.

These data are suitable for geoscience mapping at scales from the continent (1:2 500 000) down to the mineral prospect (1:50 000 scale).

The ASTER geoscience map of Western Australia has been carved into 1:1 000 000 map sheets that are digitally available as GIS-compatible images (e.g. TIF and JPG format) or in image-processing software format (e.g. BSQ with headers).

ASTER geoscience map of Western Australia, 2012

Product available from First Floor counter, Mineral House, 100 Plain St, East Perth, WA 6004, AUSTRALIA. Order online at: <www.dmp.wa.gov.au/ebookshop>.

Enquiries to Email: gds.dda@dmp.wa.gov.au; Phone: +61 8 9222 3459; Fax: +61 8 9222 3444.

Cost: \$132 [inc. GST]

The TIF and JPG format data can be downloaded over the web at no cost from CSIRO's webportal: <http://c3dmm.csiro.au> or the Auscope portal: <http://portal.auscope.org/portal/gmap.html>.
