

- Legend:**
- Strategic mineral resource protection area; should be set aside for future mining
  - 500m separation area around strategic mineral resource protection area; land use options may be restricted
  - Possible strategic resource area that may contain mineral deposits; land use options may be restricted in parts of these areas
  - Sterilized mineral deposit currently unlikely to be mined; does not restrict land use options
  - Mine, rehabilitated, or under rehabilitation
  - Grice** Generalized deposit name
  - Land title boundary, simplified
  - Highway / major road
  - Airfield
  - Local government area boundary
  - Drainage

NOTE: this map shows the extent of known titanium–zircon mineralization, surrounded by an infrastructure halo. The extent of mineralization is based on exploration only up to the date of publication. Future exploration may locate additional areas of mineralization.
